

~Spring 2010~

Lornel Consultants Seismic Contractors List

The following is a list of seismic contractors for your convenience. The purpose of this list is to keep our clients updated on the many changes going on in the seismic industry. This list is based on current CAGC (Canadian Association of Geophysical Contractors) memberships and while the accuracy of this list is not guaranteed, it should prove a useful tool pertaining to addresses, contacts and available equipment. Should you know of any changes, please pass them on and we will gladly make the necessary changes. Thank you.
